

INSTALLATION AND OWNER'S MANUAL
Z3002 Hub Cap Left Side, Rear Wheel for BMW R-C series

INSTALLATION

1. Thread the set screws into the holes in the Hub Cap. The screws should not protrude past the inside surface of the Hub Cap.
2. Position the Hub Cap in the center of the wheel.
3. Tighten the set screws evenly with the 2mm Hex Key Wrench.

Hex Key Wrench, 2mm

MAINTENANCE AND CARE

The high quality chrome finish of your NationalCycle BMW® Hub Cap can be maintained with any quality chrome cleaner and / or polish.

PARTS LIST

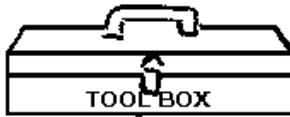

Hub Cap, Rear	1
Set Screws	3
